### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The title of the application has been amended as follows:

**DYNAMIC INSTRUMENTATION OF AN EXECUTABLE PROGRAM BY  
MEANS OF CAUSING A BREAKPOINT AT THE ENTRY POINT OF A  
FUNCTION AND PROVIDING INSTRUMENTATION CODE**

### REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

On page 6 - second paragraph of the response the Applicant clearly points out the differences between the applied art and the claimed invention in regard to the limitations in independent claims 1 and 15. The old and well known patch technology reference is not used to instrument code in the prior art. Prior art of record fails to provide sufficient motivation to combine. It is the Applicant who implemented this technology in a novel/ non obvious manner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
